

God's Country Guides

Back Country River Fishing

Migrating Salmon and Steelhead, or maybe some indigenous Browns. We try to tap into every possible way for our guest to enjoy the thrill of the local rivers. We have a Stealth Craft Drift Boat, and a Lowe Jet Sled. Whether you are an avid steam angler or a first time fisherman. We have everything you need to enjoy your time on the water. Shore lunches are available on select trips. Look into our website and choose what it is you would like to do.

God's Country Guides

Lake Michigan Trolling at its best

From ice out Brown Trout trolling in April and May, right into spring salmon around mid may through June will get your heat pumping. The midseason offshore fishery can be fast and furious and keeps us happy right up to August when the mature Kings stage for their spawning run. After the mature kings leave the lake, the juvenile fish go on a binge eating frenzy right up until we have to pull the boat out of the water in late October.

Fishing from a fully inspected and insured Tiara Yacht with a Licensed Captain
